

THE PROPHETIC MESSAGE ON THE CORONAVIRUS / COVID-19

(FULL TEXT)

The Preamble:

All glory, laud and honor to You, Most High God, and to our Lord and savior Jesus Christ, his name be praised. My name is Kwaku (Nana) Kwakye, and in the church circles I am known as “Brother Nana.” I am a native of Ghana and a citizen of the United States. I am a man of God and work and speak for God who created the heavens and earth and all things nature including man. He revealed Himself first to Abraham and the nation of Israel, and spoke to us, His creatures in the world through the medium of the Holy Bible.

I appear before you as a messenger with a prophetic/divine message for our nation and the world about the Coronavirus/COVID-19 pandemic. As it must be reiterated I am not a prophet of “gloom and doom.” Because that is the easiest way for the secular world to misinterpret it in-order to refute the message. Since the coronavirus/COVID-19 erupted in Wuhan, in Hubei Province of China and it reached our shores in February 2020, our government or political leaders have talked to everybody – doctors, scientists, Public Health Professionals, university professors and businessmen and yet nobody has talked to any spiritual/religious leader and asked, what we as a nation and the world have done wrong before God to deserve this COVID-19 which has brought our economy or way of life to almost a collapse? It clearly shows how far the secular world that has hijacked the western Christian civilization has distanced herself from faith and a professed faith in God, the latter which brought a divine blessing and from nothing and the wilderness the Christian European immigrants inherited, they were able to erect this great nation you and I are witnessing.

THE MESSAGE:

The Devine Wake-Up Call:

The COVID-19 is a divine alarm or warning of what is to come in the distant or near future to a world or life where the human-race is removing God from the human center or consciousness and walking the path of moral decay or sinful life against our Maker. How? 1. First, half of the world’s governments are run by atheists mostly “communists” who officially and categorically deny the existence of God. 2. And the other half are non-atheist governments. However, under this government are educated scholars who are turned atheists or non-believes. You over-whelming see this in the scientific world where they officially say, “you cannot believe in God and be a scientist.” Not only that they don’t accept, but they are hostile to the minority scientists who still believe in God. But the rejection or non-acceptance in the scientific world shouldn’t be a surprise to anyone for that is the tenets or life style of atheists whether in science, politics, religion, or social life. Everything they don’t agree to offend them. If this is not true let anyone name one communist atheist country where they allow the formation of another party besides the “Communist Party” or where they don’t suppress or eliminate religion completely when they can, e.g. erstwhile Soviet Union, North Korea. That’s also why they don’t want “creation” also taught in the classroom with their bogus “theory of evolution” which is

not science but how atheist scientists think the world came into being, when they don't want God's creation, despite the fact, that for almost two millennia only the Church own all schools and taught western scholars. You see! "Science" itself is knowledge God, the Creator blessed or gave unto man (human beings) and through that do we understand nature (the handiwork of God) and can apply matter or material things here to create or invent things e.g. clothing, food, medicine, books, housing, car, computer, electricity, telephone, and millions if not billions of material things around us that make life go on for human beings on this earth as God designed. That is why every people or culture that has given the world "civilization or improved life" starting from the Egyptian (African) civilization to the modern or present Western (European) civilization have knowledge in or know science. That is why King David in many years ago wrote in the Book of Psalms (Ps. 14 & 53) that a fool has said in his heart, "there is no God and they are corrupt and no good." And if you look at the wonders and mystery of nature and your mind can think right, you may conclude that, it has to take a Supreme being like God to create nature including the earth and man (human beings). Indeed, look at the mystery of all the organs or parts of the body that constitutes a man or human being plus the oxygen or air we breathe that makes life go on, and the atheist scientist is saying man evolved from the mutation of one cell. Doesn't it sound ludicrous when you ask few questions, e.g. where did this cell come from, and how could the mutation of one cell develop into the various organs and form a man? The mutation of one cell theory even look more nonsense when you look at the millions if not billions of other life forms i.e. animals and plants God put on earth. And God made a "fool" of these atheist scientists when they say man developed out of a chimpanzee and we still have other chimpanzees roaming on earth and they didn't develop into human beings when that "wonderful evolution" took place. One therefore wonders why governments of the world still allow the nonsense of "evolution theory" taught as science to our children in school when this atheist scientist idea explaining the world and life is a big lie.

The irony of it all is, all these atheist scientists and scholars went to prestigious universities, e.g. Oxford, Cambridge, Padua, Notre Dame, Sabon in Europe, and Harvard, Princeton, Yale, Stamford, University of Chicago, Northwestern, Carnegie Melon and Johns Hopkins, etc. in the U. S., all built by the Church or Christian philanthropists (e.g. John D. Rockefeller, Johns Hopkins & Carnegie Melon). Besides and for almost two millennia years the Church single handed educated western scholars until public school education started in England in the early 1700s and spread to Europe and North America. And all the early great scientists e.g. Johannes Kepler, Roger Bacon (1214 – 92), Nicolas Copernicus (1473 – 1543), Isaac Newton and Pascal were Catholic or Protestant Theologians and Church goers, and as well as host of nuns who taught in the schools. In a nutshell therefore, when you remove God from the human center or consciousness and you replace Him with atheism and non-belief nothing is left in man but wickedness, and the latter is finally translated into violence. Do you think millions of innocent citizens murdered by the communist atheist leaders who arose in the 20th century, Vladimir Lenin, Joseph Stalin, Mao Zedong, Pol Pot, Kim Jong, Fidel Castro, etc. was co-incident? Or North Korea's Kim Jong Un recently axed his uncle to death when he step-out of line was a joke? Coming home, do you think the "domestic violence" problem the courts have not been able to solve, the gang bangers shooting each other, you expel a child for misconduct in school and he comes back with a loaded gun and kill students and teachers alike, etc. are due to lack of laws? Whatever answers we get God has warned us in the Bible that He hates violence and the wicked. So, COVID-19 is a divine warning.

The Origin of The Western Civilization and Prosperity:

What we have in America and the West is a civilization that has brought tremendous prosperity and greatness in commerce and industry the world envy. And it did not happen by chance. For, centuries of the Christian Church teaching and the morality, believes and values Christianity placed on the European culture did Jesus Christ and Abraham's blessings come upon the culture. And from the "Renaissance era did a civilization called the western Christian civilization dawned on the European culture, a culture the civilized Roman colonialists and slave owners in Europe described as "barbarian." The European immigrants or settlers who followed the Pilgrims after 1620 brought with them this civilization. When they settled the first thing they did was to build their church where they worshiped on Sunday. Then when our Jewish brethren also arrived towards the end of the 19th century they built their synagogue where they also worshiped. Hence the Judeo-Christian civilization or culture in North America. The European settlers inherited a wilderness with no cities, no roads, no schools and colleges, no hospitals, telephones, banks, factories, cars, bicycles, airplanes, computers, grocery stores, skyscrapers, etc. and yet became the architects of this great nation, the world envy. From nothing but with their faith in God through the teaching of our Lord Jesus Christ have they left us with Harvards, Princetons, Notre Dames, New York Times, Chicago Tribunes, Chicago Sun Times, ABC, CBS & FOX TVs, IBMs, AT & Ts, GMs, Ford Motors, GEs, Boeings, Chases, Goldman Sachs, Coca Colas, Kelogs, Abbot Labs, Johnson & Johnson, Sears, Hiltons, Walgreens, Walmarts, Disney Worlds and millions of corporations all of which started as family businesses and have made U. S. superbly great with great jobs and lives for the people.

Indeed, since the Nation of Israel, there are no people who have so elevated God and His Son Jesus Christ to the utmost glory and honor, in terms of imposing architecture (temples, cathedrals) hymns of adoration and a dignified and respectful worship than the European race. Jesus takes the center of European literature, calendar, and culture because of centuries of Church influence. View the Vatican in Rome, the Westminster & St. Paul's Cathedrals in London, Notre Dame Cathedral in Paris and all the great cathedrals sprawling all over European cities and towns and you understand why God in His manifest blessing dawned the wisdom of civilization on them. The immigrants came with them the same spirit and built great and magnificent cathedrals and churches in the New World. Not only did they build beautiful cathedrals but their moral life i.e. their sense of right and wrong was dictated by the Bible, including marriage, family and the way they raised their children. Do you think when they began and their sons were standing on street corners selling drugs and their daughters were having babies with unknown men this country would have grown to be this great? Even where the community was small and they didn't have school they taught them at home to read and write. Today's home schooling idea came from that. Most families adopted home schooling for their children because of the recent teaching in public schools of godlessness and the nuisance of homosexual life style. In short, talents are born who have given us great inventions like automobile, telephone, airplane, space ship, computers, farm equipment, hospital equipment and medicines, sky scrapers, etc. President Lincoln observing this growing prosperity told Americans of his day that their blessing was from Jesus Christ's blessing i.e. their Christian faith and its blessing. And President Andrew Jackson earlier also said "the Bible is the rock upon which our republic rests." But today the political correct rascals and ruffians don't believe and make mockery of Christ, Christmas and Christians which is a sin in its-self. For example, the Canadian Parliament recently passed a resolution describing the Holy Bible as a "hate literature" because of its position on homosexual life style, a nation which was built from nothing but a wilderness by the European Christian ancestors or immigrants, and who kept this life style in the closet because it was a

sexual sin against God. Hence coronavirus/COVID-19 becomes a divine warning of the worse that can come if the world would not retreat to the moral virtues the faith in God teaches.

The New Secular Generation:

Interestingly, three hundred and fifty years after the Pilgrims what do we have in America? We have a secular godless generation who are not grateful and thankful for the great nation and great standard of living the Christian immigrants have passed it on to them. Not only are the Churches becoming empty but you have a growing generation of atheists and non-believers. They don't only hate the Church but are hostile to Christianity and Christians. It's becoming a crime to say, "Merry Christmas" during the yuletide or the Christmas season. They have ironically replaced it with "Happy Holidays." What holiday in history doesn't have its own name, e.g. Thanksgiving, Memorial, Labor, Independence and Presidents holidays? Eventually, what it means is, we are going to lose "Jesus blessing" President Lincoln and the past presidents talked about and hence our greatness and better life.

In short, everything the Judeo-Christian culture who built and left us with this great civilization and prosperity said it was a sin against God is what this generation is celebrating or doing. Our daughters are set loose and are living with men who have not married them. Thus, "fornication", St. Paul saw in Greece and Rome and wrote about, instead of "virginity" is the order of the day. Dressing modestly so women don't tempt men into sexual immorality belongs to the past. Their soft, light and tight pants as well as the 4- inch shorts and bikini with little browse they wear in public make them look naked whether they stand or sit in-front of men. And as a culture or nation we have lost the freedom and courage to tell them, "this is immoral and wrong." Women don't want to wear their natural or traditional dress – "lady's frock, skirt, browse and shirt anymore, so they don't look to attract men into sexual immorality. In other words, the loose way women dress and walk the street or public today make them look like they are sex objects. That is why they are losing respect and they are complaining that, men are touching them inappropriately or sexually assaulting them, forgetting that some men also cannot control themselves. And the Lord God doesn't want to see His daughters treated that way (sex objects and sex slaves).

Abortion became rampant in the last days of the Greco-Roman civilizations. And it was largely due to "fornication" which replaced "virginity" and became the order of the day as it is with us today. St. Paul seeing the sin of fornication leading to a bigger sin of abortion warned the Christians in the Greco-Roman world to flee from fornication. Therefore, it's not co-incident fornication is leading to abortions in our secular culture today. The sin of fornication easily makes secular generation avoid marriage, the way God wants us to live as families.

Raising Children Under Secular Culture:

Dr. William Spock in the 50s and other social scientists after him, taught us a new way of raising children opposite to the former Bible values of raising children with discipline, character and deportment. This "character" thing the Bible speaks about is very important in nation building, for that is what makes children grow into adulthood with self-discipline, honesty and integrity. The foregone values mean a whole lot when you have or you don't have them in human beings, for that is going to reflect in everything they do, whether they run government, business, education, the family, etc. That is

why kings and queens in Europe were wise when they started the nation building when the Roman colonialists left, and for centuries they worked with the Church to instill family and character in the European culture and it led to the western Christian civilization and prosperity the extension which is in North America today. Therefore, the social scientists teaching coupled with the removal of the spirit of God, i.e. the removal of the Bible and prayer from Public School do we have children loading guns, knives, baseball bats, etc. to school to kill or harm students and teachers alike. In Chicago Public Schools like other public schools, even 12-year old boys are raping girls in school. Why then is anyone surprised there are police stations in public schools today. Children caught up in so many juvenile crimes adults are even afraid to involve themselves is the result of turning our back on traditional Bible or godly way of raising children. When King Solomon wrote in the scriptures that, "foolishness is bound in the heart of a child, but the rod of correction shall drive it far from him" (Prov. 22), he knew what he was talking about. Spanking kids is a taboo today, but the result of lack of it on their behavior is worse. It doesn't look right either when we have police stations, surveillance cameras, metal detectors, etc. in public schools, or a mile of "safety guards" watching the children go and come from school. And so are teen gang bangers terrorizing their communities and all the answer we have is a call for more and more police. That's why God holds us accountable on the sin of not raising our children right.

Secular Culture Ridicules Jesus Christ and Christmas:

With the Bible and Church introduced to and embraced by European kings and queens and their subjects from the middle ages did Jesus Christ blessing come upon them, as President Abraham Lincoln and other presidents used to say to American people. And as I have said before, with this blessing and from the "Renaissance" era a new civilization, the "Western Christian Civilization" dawned on Europe from the ashes of the Greco-Roman civilization. The very people the civilized Romans who colonized them described as "barbarians." Now when they migrated to North America (U.S. & Canada), Australia, New Zealand and South Africa they came with their Christian faith and in time a new civilization or prosperity flourished in these new lands, which in reality is an extension of the Western or European Christian civilization. Besides the great Churches and Cathedrals built, and hymns of adoration to God and His son Jesus Christ, is the pageantry celebration of "Christmas" which began in Europe in the medieval times. During the month of December which is the Christmas season the common greeting is "Merry Christmas" and for almost two thousand years, and said in stores by employees to customers and corporate employees to each other, in addition to Christmas decorations in the stores and in the offices. Why suddenly, it's a crime to say, "Merry Christmas" anywhere and they have replaced it with "Happy Holidays?" Well! They say you are offending atheists and non-believe who have hijacked the western Christian civilization. After all, what holiday doesn't have its specific name, e.g. "Thanksgiving, Independence or 4th. Of July, Presidents, Memorial and Labor Holiday." The popular Star Bucks and other retail stores will fire their employee if he/she said, "Merry Christmas" to a customer and yet in these stores are hosted homosexual rainbow flag instead of the American national flag. So, you see how far secular godless culture has brought us. The hostility against the Church, Christ and Christmas today is a great national sin and therefore a great tragedy. If we the people and therefore Congress, the peoples' representative, don't do anything about it, especially with the restoration of the 'Christmas spirit' we are surely going to lose our blessing which came from the blessing of Jesus Christ, as President Lincoln and all the presidents who went before us used to say to the American people of their day. Do you think "God bless America" our leaders today say to the nation came from nowhere? It came from the leaders of the colonial days as well as the Founding Fathers who passed it on to us. The atheists were there

when the Christian immigrants were building this great nation with their faith in God. But they were in the closet as they were not respected if you were an atheist, because the people then widely believed in God even if they didn't go to Church. Even way back in King David's day atheists were there. That is why he wrote in the scriptures (Psalms 14 & 53) that "a fool has said in his heart there is no God and they are corrupt" and no good. That's what today's atheists are. That is why everything good for U.S. offends them.

To restore our spiritual and material blessing Congress need to do what it takes to restore "Merry Christmas" and the Christmas tradition. However, if the atheists, the ACLU, and the political correct rascals and ruffians start their slogan, "separation of church and state" and take it to court and most likely the judge rules for them, they and the judge would have to answer only four questions: 1. Who wrote the American constitution? The Founding Fathers; 2. Who promulgated the constitution and it became a law? The American people of the day; 3. Did the Founding Fathers and the American public or people say, "Merry Christmas" and celebrated Christmas? Yes; 4. How long since then have we been saying 'Merry Christmas' and celebrated Christmas? 250 years. So, you see how a judge who sides with these fools who have no respect for history and tradition, especially the tradition that made us great, does not understand the constitution he /she is interpreting and appears inefficient of his judicial work. Then like Chicago's Mayor Daley did with his gang banging ordinance the Supreme Court declared unconstitutional, Congress can re-write the law and no one will take it to court again. This therefore will save us from the sin of ridiculing the very foundation of our nations blessing that made the U. S. mighty and great.

Sodomy and Moral Corruption:

One of the highest sins or moral corruption besides murder and atheism or the denial of the Spirit (God) any civilization, culture or people can admonish is open sodomy or homosexual life style. Because God in His mysterious creation and infinite wisdom made them male and female, and gave them the male and female sex organs for procreation. In Abraham's day it was open in Sodom and Gomorrah. And a fury of fire came and wiped off the two city-state civilizations (Genesis 19). It was there in Moses day in the open among the Canaanites. God had the Israelites under Joshua brutally destroy the six nations in Canaan and the land was given to the Israelites. In St. Paul's day he saw it in the open in Greece and Rome and wrote about it in the Books of Romans and Corinthians. When their cup was full both Greece and Rome collapsed and the two civilizations never rose up. Later when the Greco-Roman worlds in Europe embraced the Church did her teaching restore marriage and family and pushed sodomy back into the closet. So, in the beginning there were no homosexual priests in the Church to molest boys until our day. That is why the retired Pope Benedict xvi blamed the child sexual assault in the Church on the 60s "new freedom" and gays are parading on the street. Again, less than a decade the Boys Scout of America openly accepted homosexuals as leaders they have filed for bankruptcy because of law suits for sexual assaults on the boys. Today the court and "civil rights" have brought them out and they are not keeping it to themselves but celebrating it with festivals and parades in every major Western city. In Chicago and other big cities millions cheer and salute their parade. But how long would this go on before God whose divine moral law is steadfast for all generations step in? The answer is simple, it's a matter of time before we see God's judgement. That's why the COVID-19 pandemic is a warning to the world that man is not in-charge, for there is something higher and beyond us.

President Obama Used His Office to Promote Sodomy:

President Obama in his eight years in office did not build one school, college, store, factory, etc. in the African American community, not even in his adopted city of Chicago. Neither did he rescue the African American run city of Detroit from her \$18 billion bankruptcy, the largest municipal bankruptcy in the history of U. S. But he devoted a good-time of his administration in promoting homosexual agenda none of the 43 Presidents under whom this great nation was built came close in doing. From bringing their leaders to the White House for the first time in the history of this nation and repealing the laws restricting their accommodation in public, e.g. Defense of Marriage Act (DOMA), and Don't Ask Don't Tell, both passed under Democratic President Clinton, to appointing them to prominent public offices e.g. Eric Fanning as Secretary of the Army and Justice Elina Keagan to Supreme Court. He ordered transgender people openly accepted in the military; Michael Sam, first NFL open gay was his "special guest" for his second inauguration, and so was the "poet" reader, Richard Blanco; he replaced Louie Giglio for preaching against homosexuality with gay-loving Episcopal priest, Luis Leon to give the benediction for the same inauguration; one gay High School student committed suicide from bullying, and that was a call for "White House conference on bullying", and yet thousands of Black and Latino youth die of violence and never attracted White House conference, nor did he call a conference on marriage and family when almost every African American young woman who has a child is out of wedlock. One therefore, may be tempted to ask, did he know and understand why no President has done any of that before? Indeed, not only in U.S. did he carry his homosexual program. He carried it to his father's continent. While he did not award one scholarship for one African to come and study career, trade and technology skill in the U.S. he was urging African leaders not only to open their countries to homosexuals but also to give them same sex marriage. But the poor African leaders responded wisely and said, "how can we do this and sin before God when we cannot feed our people let alone give them prosperous life" in their struggle? So, "no thanks Mr. President." The truth of the matter is, what President Obama probably didn't know and does not want to know is that, the immigrants who left Europe and came and started this new America (because Native Americans were here), were people of faith and a professed faith in God through the teaching of our Lord and Savior Jesus Christ. That is, they were Christians and were not ashamed to describe America as a "Christian nation" but which he was proud to announce in two Muslim countries, Egypt and Turkey, that, America is no more a "Christian country", something none of the 43 Presidents under whom this great nation was built ever came close saying. They always believed the talents, wisdom, self-discipline they had in building this great nation came from God and through Jesus' blessing as Presidents like Lincoln always reminded them. The adage, "the sweetness of the pudding lies in the eating" explains it all. The "Christian nation" was not just in name or words, for they put Christmas trees, the Nativity of Jesus, the Ten Commandments and other Christian symbols in their City Halls and public buildings. It is in recent years the atheist ACLU organization, acting like Taliban has sought to destroy American religious history and heritage, and is using the court, the judiciary branch of the government, to remove these symbols from City Halls and public institutions. Because and as I said earlier, whatever atheists disagree with offends them. And yet some Church leaders keep him and other political leaders acting like him promoting sodomy and moral corruption in the country in the Church, when St. Paul was clear in I Corinthians Chap. 5, who we should keep or ex-communicate in Christ's Church. In short, as a nation we have seriously sinned against God by practicing open sodomy and hence COVID-19 is a divine wake up call.

The Same Sex Marriage and Destruction of Divine Marriage:

Another serious sin before God the Western Christian civilization now hijacked by the godless secular culture has found herself in is “same-sex marriage.” Marriage as the secular culture forgets is a sacred institution God blessed unto man, when He first joined Adam and Eve in the garden of Eden. And it’s the beginning or formation of a new family and for procreation, so the human-race would multiply and be fruitful as God said in Genesis (Genesis 1: 27, 28). Marriage precedes every human institution, e.g. government, constitution, civil rights, hospital, insurance, taxes and even the Synagogue and the Church (because marriage was there before Moses and Jesus, the respective founders of the latter were born). And it has always been between a man, and a woman and should always be the same so far as man dwells on God’s earth. Even for cultures that accept polygamy it has always be between a man (husband) and his many wives. Therefore, not even one of the reasons homosexuals and their supporters advance, e.g. taxes, insurance, hospital visitation, civil rights, inheritance and equality merits why societies join a man and a woman into a union called marriage. That is why the June 2015 Supreme Court’s imposition of same sex marriage on this nation, for the sake of federal tax benefit was wrong, especially with the democratic country the Founding Fathers gave us, and when 34 out of the 50 states in a free and fair election had placed a ban on same-sex marriage when they saw it coming from Europe and Canada. But Congress, the peoples’ representative did nothing to correct this and restore the sacred institution of marriage for the American people, the way Mayor Daley of Chicago reshaped and restored his earlier City law for the police to effectively deal with gang bangers the Supreme Court had ruled as unconstitutional. When the then speaker of the House, John Boehner was asked what Congress would do, he said, “nothing.” In an obvious wrong decision by the court like the “same sex marriage”, Congress (the Legislature), and the people’s elected representative (because 350 million Americans cannot meet in one room like the Greek city forum and make laws) should have step in like Mayor Daley did with his Chicago City Hall, and pass a law on behalf of the people to correct the serious and extremely wrong decision by the court. Why is the court’s decision obviously wrong? 1. The American Constitution says nothing about same-sex marriage. 2. The Founding Fathers gave us a “democracy” which unlike Taliban, Castro’s Cuba, China, Venezuela, the erstwhile Soviet Union or North Korea’s democracy, the people have the final power or say and not the representative government, e.g. the court. And 34 out of the 50 states through free and fair referendum/elections placed a ban on same sex marriage when they saw it coming. 3. Marriage matters belong to the states and not federal so as for Federal judges to make laws establishing new marriage i.e. same-sex marriage. 4. Historically and traditionally nobody can place a date-line on when marriage began, save that it began in the garden of Eden, when God joined Adam and Eve as husband and wife (Genesis Chap. 2), and has since remained between a man and a woman in all cultures of the world. And by God’s order marriage begins a new family and is for procreation. Therefore for U. S. Supreme Court to use the “Due Process and the 14th. Amendment Equal Treatment Clause” and allow same-sex marriage in the Obergefell V. Hodges is a mockery of justice. Moreover, when the Founding Fathers wrote the constitution homosexuals were there in the closet, and let alone come out and marry. 5. Again most of the judges as well as their parents were married, and knew very well that they were married not for anything other than “family and procreation”, and hence the plaintiff’s demand for a constitutional protection for same sex marriage was based on nothing but lies. 6. To save the integrity of the court and her (court) decision, some organizations called for justice Ginsburg and Elena Kagan to recuse themselves from the case, because they have officiated same-sex marriages before. In addition, they showed papers and pictures, Elena Kagan as Dean of the Harvard Law school organized gay conferences and meetings on Harvard campus. But the two justices and the court ignored

this plea. 7. Most importantly the framers of the Constitution established the Supreme Court or the judiciary as the interpreter and not the maker of laws, the latter powers belong to the Legislature or Congress. Indeed, not only did the five judges of the Supreme Court imposed same sex marriage on the American people, but this sinful and satanic marriage first landed on the shores of the U. S. in Massachusetts and by a similar obvious wrong decision by the state's Supreme Court. Massachusetts was the first state, following Netherlands, Belgium and Canada to bring this evil marriage to the U.S. A case began in 2001, when the Gay & Lesbian Advocates and Defenders who wanted gay marriage rights took "Goodridge V Department of Public Health" to Suffolk County Superior Court, presided by judge Thomas Connolly. The Judge justly and wisely ruled that, state marriage statute was not neutral, no fundamental right to same-sex marriage existed (anywhere in the state's constitution), and limiting marriage to male – female was rational because procreation is marriage's purpose and ruled against the Gays advocates. And that is why I have said before, that, God gave us marriage to begin a new family and for procreation. Moreover, the Founding Fathers wrote the constitution not to give us "rights" (especially rights to make us immoral) but to guide us as to how to govern the nation. However, in 2003 the Gay's organization took the case direct to the Massachusetts Supreme Court and said, the "state's ban on same sex marriage was unconstitutional." In November 2003, by a 4 to 3 ruling the state's Supreme Court agreed and said the state's ban on same-sex marriage was unconstitutional. They further said, "barring individual from protections, benefits, and obligations of civil marriage solely because that person would marry a person of the same sex violate the Massachusetts Constitution." "We (court) construe civil marriage to mean the voluntary union of two persons as spouses, to the exclusion of all others." The court therefore orders the Massachusetts Legislature within 180 days to make the appropriate law in-light of their opinion to allow same-sex marriage. There are so many questions that can be asked as to the wisdom of the State Supreme Court decision or ruling. For example, if the state legislature now has to make a law to allow same sex marriage, then why didn't they agree with the lower County court ruling that, the Massachusetts Constitution did not allow same-sex marriage? Or to their reasoning, if marriage simply means "the voluntary union of two persons as spouses to the exclusion of all others", should a father and daughter, mother and son, brother and sister, brother and brother, sister and sister, grandfather and granddaughter, 30-year old man and 10-year old girl, etc. marry? Again, what happened to the separation of powers" of the three branches of government the wise Founding Fathers inserted in the American constitution, and the state legislature capitulated to the court, and did not say the court did not have the power to order the legislature what law(s) they should make or not make for the State of Massachusetts? And that, they are only there to interpret what laws are on the books and therefore should have agreed with the lower county court, that there is nowhere the state constitution or any law allows same-sex marriage. Therefore, the state Legislature should have finally passed a resolution or law to ignore or disobey the illegal order of the state Supreme Court; and today there would be no same sex marriage on the soil of the U. S. where already 34 out of 50 states through a free and a fair referendum had passed a ban on the "devil's marriage" when they saw it coming. Now, how many of the California's "Proposition Laws" are still not on the books? None, for they are all on the books except "Proposition 8." And why not Proposition 8? Once upon a time same-sex marriage case went to the California state Supreme Court, and the latter ruled that "same-sex marriage" was constitutional. But the people felt it was unconstitutional because the California constitution said nothing about "same sex marriage" and unfortunately the judges with a "blind eye" didn't see that. And the California people knew very well with the DEMOCRACY the wise Founding Fathers gave us, the people and not the court had the final say, and they collectively exercise this power through a free and

fair election. So, they put Proposition 8 on the ballot for the people to decide. And the election came and majority of the people won and placed a ban on same-sex marriage. Indeed, historically and traditionally since election began in this country when you lose in a free and fair election you politely call the winner and congratulate him/her. Unfortunately, the gays and their supporters who lost in the election don't believe in the democratic institution the Founding Fathers gave us, and instead of congratulating the winners mount protests, intimidation, threats and personal attacks on Mormons and Christians in-particular who voted for the ban. You see! They (homosexuals) always get away with their intimidation, threats and attacks (e.g. the late Cardinal O'Connor's New York cathedral and APA's conventions) and are not arrested and prosecuted. Because while the American constitution allows free and peaceful protests, it does not permit intimidation, threats and attacks and must be illegal acts. Moreover, Christians and moral Americans are silent and don't mount counter protests, and as a result they (gays) have pushed their will on the whole nation, people who are not even 1% of the population though they falsely claim to be 10%. That is why for example they are replacing the national flag with their "rainbow" flag in buildings and everybody is afraid to raise a voice let alone stop them. Finally, the gays and their supporters after losing the election took "Proposition 8" to California Supreme Court, for the court to rule Proposition 8 as illegal and unconstitutional. But the same court whose earlier wrong decision called for the "Proposition 8" now respected the collective decision of the people through free and fair election, and therefore threw the case out. You thought the court ruling will now put everything to rest. No! Gays don't respect the true American democracy, where the people through free and fair election collectively have the final say or power, and therefore believed they would eventually find a judge who makes his own law(s) instead of interpreting the law(s). So, the gays and their supporters take "Proposition 8" to San Francisco federal court and wanted it stricken out, because an election decision by the people of California violated their constitutional and civil rights. And judge George Walker who himself was later found to be a homosexual presides over the case and agrees with them, and with his pen strikes down Proposition 8, the people's collective decision. So, now why are the rest of California's "Proposition" laws sitting in the books and they are not declared illegal by judge Walker's law? Why didn't California state see judge Walker's arbitrary decision against the "will" of the people as a threat to DEMOCRACY and did nothing? Again, why couldn't Congress also see federal judge Wacker's decision as a complete threat to the fundamental institution of our democracy, which is unlike the erstwhile Soviet, China, Taliban, Cuba, Venezuela and North Korea democracy, the people of California have the final say and not one judge or even a representative government, and took steps to impeach him for placing himself above the law and a threat to true democracy? After his decision then gays in 16 states took the states' constitutional bans through free and fair elections on same-sex marriage to the federal court, and guess what happened? All the 16 federal courts with the stroke of the pen declared the ban unconstitutional. These cases finally culminate in Obergefell V Hodges in which the U. S. Supreme Court also ruled for same sex marriage, and now judges have imposed same-sex marriage or devil's marriage on the American people against their "will" which is threat to true democracy the Founding Fathers gave us. In a nutshell therefore, God is wandering if mankind is insane and doesn't fear Him anymore and they are marrying two men and two women to destroy the sacred institution of marriage. Therefore, if Congress the peoples' representative cannot stop this evil marriage courts and judges have imposed on the people God's judgement is coming, and COVID-19 is a warning.

The Sin of Transgender Sex Change:

In his 1965 book, "Sexual Hygiene and Pathology", Dr. George Oliven coined the term "transgender" to describe someone who was born in the body of incorrect sex. Thus, the beginning of what is going on in the world of transgender surgery to change one's natural gender into a newly requested gender or sex. But how does the learned doctor or anybody knows that the body he/she is born in is not the correct one? The only time would be when one is in mental delusion or mental or psychological disarray, and therefore is a sickness like any illness. Because nature or God's handiwork assigned us to the sex we are born in. Again, we didn't make ourselves to know that we made a mistake to put our body in an incorrect sex. In short, anyone who gets here to decide the correct sex he/she should have been born in, definitely has mental or psychological problem and needs help or treatment like any disease. In essence, there should have been laws to ban the doctors and hospitals profiting from this surgery if we didn't want to offend God in his perfect creation. So, what one sees is, the western secular culture which has hijacked the Christian western civilization and the world today it influences are becoming bolder and bolder in doing what God said He hates i.e. sin. This is happening because the culture being secular and worldly is no more influenced by the "moral or right and wrong" teaching of the Church. And when the application of science and technology or better stated anything you do is not guided by morality or right and wrong, you are bound to do it the way you want regardless of "right and wrong", and the latter being the moral law of God sitting in the conscience of every human being, which the Bible reinforces and through the teaching of the Church. The lack of moral teaching and influence in society today is the result of the concept "separation of Church and state" flying around. For if you separate the Church and state (people) you are left with no one teaching the culture or people "right from wrong." That is why President Lincoln wisely said, "without the Bible we would not know right from wrong." And if a civilization, culture or people cease to know "right from wrong" they are like walking in darkness to fall into a pit. That is why COVID-19 is a divine early warning to the West and the world who are participating in the new sin of sex change. After all, and until 1965 when Dr. Oliven came up with the idea of "transgender sex change" and as far as man's history is known, no one was carrying on with the evil and therefore the sin of transgender sex change in the world. But why the governments of the West and the rest of the nations that participate in the transgender sex change did not take the measures to stop this evil scientific and medical procedure shows how far the world has strayed away from faith in God into secular godless life. Certainly, a world which is boldly intruding in nature's perfect order is not going to get away with without getting divine retribution sooner or later.

The New LGBTQ People:

The term "LGBTQ" i.e. Lesbian, Gay, Bisexual, Transgender and Queer peoples is so new that my search to find a dictionary meaning was a futile attempt, because they did not have the term (LGBTQ) in any of the two leading English dictionaries, the Oxford and the Webster's dictionaries. In recent history these are a new people the Western governments and the nations imitating them are artificially creating by law. And they are doing so because of the pressure brought upon them by these group of people through protests, harassment, intimidation, name-calling, civil rights, equality and money (court and lobbyists). But the natural question any intelligent person or a mind that knows right from wrong should ask is, are they truly a people, minority or community they claim to be? This is because the politicians and their supporters who are advancing their cause at the expense of sinning against God, who in His perfect creation made them "male and female", and the latter have multiplied to be tribes, ethnicities and nations, have not asked and answered that question. In truth and in the real-world, the so called

“LGBTQ” people in the U.S. for example, are part of the larger American people. If you break it further down, like every American they belong to the European(white), African, Asian, Latin(Spanish) and Native American group. If one wants minority classification one will as well find them in each group, e.g. Italian, Irish, Greek, Polish, Jewish, African(black), Mexican, Puerto Rican, Chinese, Japanese, Korean, Arab and Native American. Their name, e.g. gay, lesbian, and bisexual is derived just from their perverse sexual behavior and nothing more or less. Not only them, but there are other immoral sexual behaviors that get names like prostitute, child-molester, fornicator, adulterer, etc. to those who do it. So, one who lives by stealing is called a “thief.” Even outside sex life, the trade, career, or profession give us names, e.g. doctor, nurse, teacher, professor, comedian, artist, politician, judge, baby-sitter, driver, trader, mechanic, farmer, fisherman, and hundreds if not thousands of names one can think of. And all these names and individuals who have them also are first American people or citizens. Then they are European (white), African, Asian, Latin and Native American. They are all part of the minority group, e.g. Italian, Greek, Scottish, African, Mexican, Chinese and Native American too. Therefore, if all these hundreds and thousands of names of people were to organize as “gays or LGBTQ” have done and come and claim minority and special status what a society and nation we would be? We can’t even function as a people or country. So, you see how the minority and special status homosexuals and LGBTQ peoples claim and the court and the government grant them is fake. If for example, child-molesters, and thieves were to organize and demand the same rights and protection shall it be given them? If “No”, why not? Therefore, this openly LGBTQ stuff going on is nothing more or less than our defiant to God as a civilization, that we don’t care about His “moral law of right and wrong.” We always have to remember that when Greeks and Romans at certain point in their history didn’t care about God’s moral law of right and wrong, and did whatever their mind and heart told them they finally collapsed, because His law for nature is steadfast for all generations. And so also were the civilizations before them who also received divine judgement for their sins our world today think is a joke.

God’s Moral Law for Man:

To understand the “moral law for man” and which the Bible calls the “commandments and statutes” is simple. Everything God created in nature in the whole universe follow certain divine or natural law for it to function right. For instance, plant follow the law or process of photosynthesis and produces its food to grow. In process it uses a combination of water and sunlight and the right combination makes the plant bloom. The absence of one or improper combination will make the plant grow lean, dry or die. Birds fly by their two wings. Therefore, if a bird loses one wing it cannot fly. There is a law for our planet earth as there is for every planet or everything God created. The earth hangs in space and doesn’t fall. Why? Because of the law that holds it in space. By divine law or command, it rotates on its axis and revolves around the sun. Out of this comes the day and night and the seasons. If something happened and it stop the rotation and the revolution, or someone pushed it out of its axis, we know for sure the day and night and the seasons will cease. But the rest of what will happen to earth and all the life on it including man no one knows. So, man’s divine law is morals or sense of right and wrong for us to thrive well in life, and which is planted deep in our conscience. So that everything we do individually or collectively as a people we ought to be guided by our morals or sense of right and wrong. That is why we know for example stealing, adultery, child-molestation, incest, sodomy, bribery or greed is wrong. And so, marriage, kindness, love, peace, discipline, order, respect, education, food, wealth, etc. is good. That is why the Church, synagogue or religion per-se stresses on our human moral life. Because at the end if mankind steps out of divine law by living morally corrupt life, it’s not God who is

wicked and He will inflict suffering upon us. But from the examples cited above, it is by disobeying the law of nature (God's law) that will bring the consequence of suffering, just like when we live by obeying His law or command it brings the blessing of good and peaceful life. So, the Christian life in Europe and which the immigrants brought to North America has brought about the abounding prosperity. That is why God instructed Moses to write in Deuteronomy and for all generations that, He has set before mankind "a blessing and a curse." A blessing that you obey His commandment/law, and a curse that you disobey His commandment/law (Deuto.11). Therefore, if anyone thinks it is the Church who is losing with the secular culture's furious campaign of "separation of Church and state (people)" led by ACLU and the political correct rascals and ruffians, and with the help of the court, the judiciary branch of the government, one must think twice. For, and from the foundation of this great nation, the Christian immigrants placed the Church in the center of public influence. And of course, that is why the secularists are fighting in the court to remove it in the first place. They are indirectly using the power of the court and the weakness in the constitution to do their bid, because unlike Taliban they don't have the full or overall governmental power. Therefore COVID-19 becomes a divine warning to our nation and the world of the rising atheism and the moral corruption raging the earth. Sure, He gave the human- race a free-will life but it's balanced by upshot or consequence of every action.

The Court, Civil and Human Rights Effect on a Nation's Soul:

There is a meaning to what King Solomon said in Proverbs 14, that, "righteousness exalts a nation and sin or moral corruption is bad for her." When the Church i.e. Christian faith influenced the European culture did they emerge from "barbarian culture into a modern civilized and prosperous society called the western Christian civilization. Likewise, when the European Christian immigrants brought the same Church and the civilization to North America, did they from nothing and the wilderness they inherited, leave us with this great nation. When you are building a good productive nation, it requires a lot of sacrifice such as marriage, stable family and self-discipline or moral uprightness. But today everybody is selfishly going to court to get rights just like the last days of the Greco-Roman civilizations, everybody went to court to get "rights." However, that doesn't mean everyone will get justice who sees the light of the court. That is, the easy access to court does not equate justice because an imperfect man sits in the bench. That is why St. Paul seeing this injustice in man's court warned the Corinthian Christians not to rush to the secular courts and rather settle matters among them in the Church (I Corinthians 6). Many Americans believe the freedoms they have is guaranteed them by the constitution and the court. And others think because we are "freedom loving people." Indeed, none of these believes is true. Simply put, whether a nation or people have freedom or not comes from your leaders believes and values, because they shape the direction of the country. For instance, if the Founding Fathers were not Bible and Christian believing and god-fearing people, and they were communist atheists, nongod-fearing, we would have had exactly Lenin and Stalin's Soviet Union, Mao's China and Castro's Cuba, etc. On the contrary why not Chinese and North Koreans say that ("freedom loving") to themselves and have freedom? Again, if by merely having a written constitution gives you freedom, why did all the young independent nations who had independence and written constitutions from the European colonialist all ended up under despots in recent history? Remember also, all the despotic, tyrannical communist atheist nations all have written constitutions. Truthfully, the Christian believes and values of the Western leaders beginning with kings and queens in Europe to our modern Prime Ministers and Presidents do we have the freedom. And originally, it was a "religious freedom" and then naturally brought us the other freedoms- political, economic and social, all these

three freedoms are also lost in communist atheist nations because they don't have religious freedom. The freedom the western countries enjoy doesn't matter whether or not they have a written constitution. For example, nations like Britain, Netherlands, Denmark and Sweden who still have monarchy and did not have bloody revolutions like Germany, France and Russia have no written constitutions and yet enjoy the same freedom as the U. S. and the rest of the western countries with written constitutions, and is all because of the Christian roots they all share. Better still and as said above, all the communist atheist nations have written constitutions and yet their people are yearning for freedom. It can also be said that, there were twenty-two coupes, between Napoleon and General Charles de Gaulle's 5th. Republic and yet France never lost the freedom other European nations enjoyed. Neither did Adolf Hitler and his NAZI regime come to power through a military coupe. Hitler was duly elected in a democratic and free Germany. Yet condition arose that made Hitler turn Germany into a despotic evil nation and Germans lost their freedom overnight.

In a nutshell therefore, the freedom the West boast of came to us as a blessing from the Christian faith of the people and the leaders starting with kings and queens in Europe unto our democratic governments headed by Prime Ministers and Presidents, and not because of paper- work constitutions or the court and the Civil, Human Rights commissions and ACLU. As early as 1215 when the English protested for certain rights did King John, a Christian, slaughter them? He rather sealed it with Magna Carta. However, as late as the 20th century, could anyone protest the communist atheist leaders who arose e.g. Vladimir Lenin, Stalin, Mao Zedong, Pol Pot, Ho Chi Minh, Kim Jong, Saddam Hussein and Fidel Castro without being slaughtered? Look at the communist Chinese recent slaughter of student protesters at Tiananmen Square as a proof. Hence this is an adumbration of the fundamental difference between the western civilization which began and run under the people of the Christian faith and the same civilization which is gradually slipping into the hands of a new generation of growing atheists and non-belief. That is why one has to wary when the court, the Civil and Human Right Commissions in the West are being used today not only to stifle the Christian belief but to treat the Christian followers as haters, demagogues and the bad guys. For example, in Canada there is a law which makes it illegal for a preacher to say homosexual life style is a sin and immoral. And not only that, for the Canadian Parliament recently passed a resolution calling the Bible a "hate literature." While in the U. S. homosexuals are dragging devout Christians and their businesses to court and the Civil Rights commission on charges of discrimination, and only for them to face unreasonably heavy fines and the closure of their businesses even in the face of the First Amendment Clause in the constitution which guarantees free exercise of religion. That is why I said earlier the paper-work "constitution" does not guarantee you "freedom." It is the people who have the power to interpret or use it and their believes and values. The very people (Christians) and their families who are still practicing the believes and values that exalted this nation and the West in righteousness, and God looking down on earth blessed the U. S. and the Western world with an unprecedented prosperity and greatness. This is what African Americans as a people don't know and don't understand and they wrongly think "racism" is the reason why they remain impoverish. Recently when millions of Muslims were running away from their countries, e.g. Syria and Afghanistan, they all ended up in Europe and North America and did not go to Saudi Arabia and Iran, and it's because of better opportunities Christian civilization has brought.

When one atheist, Madalyn O'Hair decided to remove the Bible and school prayer from the public school, did the defenders in millions who wanted this tradition preserved get justice, a tradition and practice that goes back to the colonial days and before the Founding Fathers? Certainly not! When

even after the Founding Fathers the practice went on for 200 years (1776 – 1963) before the Supreme Court removed it in 1963. Also looking not only at the “atheist” belief of Madalyn O’Hair but also her values and character, one wonders if the court gave the American people justice. A woman who had her first son who testified in the case out of wedlock with a married man. And this son who grew up in a fatherless home also made a High School girl pregnant. Again, she had her second son by a boy-friend, the son never met. Finally, she misappropriated the funds of the atheist organization she founded and which ended her and her second son’s murder by a disgruntled member. The first son finally saw the light and the truth and now he is not only a Christian but a Baptist minister. This conversion as well as many other atheist conversions e.g. the conversion of C. S. Lewis, an Oxford don and atheist, who not just became a Christian but was a 20th century prolific Christian writer, should have been a lesson to our growing modern atheists that their only folly is, they have closed their eyes and mind to see God, by not looking at the mystery of nature. Moreover, did the taxicab industry get justice when all they went to court for was “fair and leveled playfield”, when Uber removed the mobile phone APPS from taxicabs and put it in private cars and use private drivers doing commercial transportation business throughout the whole country and the world, in the face of local Public Vehicle/Car for hire regulation or the 14th. Amendment clause of “equal treatment under the law”, enshrined in the U. S. Constitution? So, St. Paul was right when he saw flagrant injustice in man’s secular court and which in-itself is a sin for not granting people true justice and dampens a nation’s soul. People wonder why retail companies are dying in the face of the “Anti-Trust” law for fair competition and a company like Amazon continue to outgrow and destroy the retail industry. In a nutshell therefore, God does not care about giving civil or human rights to people, or how the court interprets the American or any constitution. What He cares about is your people or the human-race lives by His moral law or standards.

Feminists and Liberation of Women:

Emerging in our secular culture today are women who are called “feminists.” They hate God and men, because they wrongly think God did not make women equal to men and are busy fighting for “equality.” In the name of “equality” they are forcing society to let women who are our mothers do certain things which are morally wrong. For instance, putting women (mothers) in a battle-field to kill, or forcing women into the construction work. With the latter how do you ask a pregnant woman to lift a steel beam or put her on the crane or the structure to build a building. Again, there is no religion or Church denomination that has so elevated women spiritually and physically to prominence in society than the Catholic Church. The elevation and the adoration the Church gives to “Virgin Mary” places her in the center of the worship outside Jesus Christ. And yet there is no religion or Church feminist hate like the Catholic Church, just because they don’t appoint women to the priesthood, even though women are given an important-role as “nuns” in the Church. Also, women are equally given sainthood like men. At the end of the tunnel of fighting for equality nothing changes, for men still remain as men and women as women the way God made them, and they all do what nature has endowed each to do best. Because the Bible in Genesis simply say He created them male and female and blessed them to be fruitful and multiply, through marriage and family and replenish the earth. So, the nature of the separate bodies is to attract each other sexually for procreation. There is nowhere in the Bible where it says God made one superior or inferior to the other. These feminists, claim liberation of women, but who they liberated them from no one has asked them and so no one knows. My guess is from their fathers who used to set the same standards for them and the boys, so the latter would not use them unless they married them. What we notice today is, when the feminists liberated the women they failed to set standards for them.

Therefore, what we are seeing is, our daughters are living with men who have not married them. Also, they have moved away from dressing modestly to lose or half-naked cover and tempting men into sexual immorality. The worse is the new soft, light and tight pants and the 4-inch shorts and bikinis and little browse women wear and they just look naked when they sit or stand in front of men, and does nothing but tempt men into sexual immorality. Therefore, suggesting to culture that women are nothing but sex “objects or slaves.” One wonders why women don’t want to wear their traditional dress- ladies’ frock, skirt, shirt and browse, which made them stand moral before men. In short, God’s instruction and the gift of marriage as sacred institution to begin a family is seen with impunity. It was not God’s intension for men and women to compete as individuals for honor, else He would not have given us the “family” as the foundation or the building block for a nation.

The Sin of Sexual Revolution:

The single organ that identifies a boy from a girl at birth is the male or female sex organ. Otherwise no one would know who is a man or a woman until they start to grow beard and breast respectively. Therefore, spiritually and physically the sex organ makes us male and female or man and woman. Thus, God in His mysterious creation and infinite wisdom gave us the male and female sex organs for procreation. Hence, sex between a man and a woman becomes “sacred”, and God placed it in the confines of marriage and family, beginning with our first ancestors, Adam and Eve, in the garden of Eden. The reason we know this is, when God created Eve He brought her to join Adam in a union as a husband and wife (Genesis 1&2). That is, they did not live as a boy-friend and a girl-friend before they decided to marry. As I have pointed out earlier when the Greco-Roman civilizations collapsed and Europe went through a period of economic and life’s suffering in the middle ages, and they finally embraced the Church or faith, the latter’s teaching and appeal restored marriage and family, and homosexuality was also pushed into the closet. From then on, the young were raised like “virgin Mary” until they married. And when you married there was no divorce unless there was an adultery as Jesus said in Matthew 19. It must be reiterated that it was not only the European Christian culture that gave us this great spiritual virtue among the young, but that it was a practice in the ancient world the modern world has inherited and we are on the march destroying it. For instance, in 1995 there was a rape in Okinawa, in Japan, involving three U. S. service men. They raped a 12-year old teenage girl and it threw 80,000 Okinawan protesters on the street. This was the largest anti-American protest, and they demanded the closure of the military base not just because they raped a teenage girl, but because they messed up her virginity. Indeed, it was so serious It took both the Japanese leader Ryutaro Hashimoto, and the then U. S. President, Clinton to settle the matter. In the 80s there were two cases in Los Angeles where two Korean immigrant fathers shot their daughters because they were dating American boys to destroy their “virginity.” Even though this is an extreme measure it shows how these immigrants from the “old country” view or took “virginity” serious, and so was America until lately.

The term “Sexual Revolution” was coined in the 1910s to 1930s by Sigmund Freud scholars, Otto Gross and Wilhelm Reich in their scholarship or study on sociology of sex at the time when American traditional conservative values was gradually being undermined or eroded by what became as the “Rolling 20s. In short, the “sexual revolution” whose akin name is “sexual liberation” was a social movement that challenged the existing traditional codes of sexual behavior and inter personal relationship throughout the U. S. and rest of the world spanning through the 60s and 80s. Accompanying this sexual liberation were increased acceptance of sex outside the traditional heterosexual monogamous marriage relationship, the use of contraception, public nudity, pornography

premarital sex, homosexuality, masturbation, abortion and alternative forms of sexuality. This is similar to the last days of the Greco-Roman societies, where in a similar sexual revolution they accepted legalized prostitution, public nudity, bisexuality, pederasty, homosexuality and promiscuity. Going back earlier, there has been a similar sexual liberation in Europe even if they didn't call it "sexual revolution" in the "Age of Enlightenment" in the 18th century, where toleration increased for heterosexual sex outside marriage including prostitution, mistresses, and premarital sex. However, the orthodox "Victorian morality" came to replace this declining morality.

In a nutshell therefore, where there are many factors that led to the 60s sexual revolution, the most significant of all was the growing secularization of society from the Judeo-Christian culture, and the former which also brought with it the feminist and women liberation, normalization of pornography, the playboy culture (e.g. porn films and magazines, explicit sex on screen), and the influence of "Hollywood morality." It must be understood that, a society, culture, people or nation is not going to function in a vacuum. It's always going to be influenced one way or the other by a religious or spiritual world view and values, or by secular humanist or man's world view and values. A religious influenced culture, always see a God who has a moral law for man to live his/her life by, whereas the secular humanist culture thinks man is in-charge of his/her own affairs and therefore can act upon what his/her heart and mind tell them. And a culture does not turn secular until the Church or religion starts to lose its influence. Hence, the declining membership in the Church has led to the growing secularism in the West. Obviously, with secularism will come with its own believe and values and hence the "sexual revolution", where secular culture looks at sex as "recreational" whereas the creator of it and His religious culture see it as "sacred" and therefore need to be handled with respect and dignity. So, it's not co-incident the West and the world she has influenced found herself on the path of sexual moral decay not to mention the rise of open sodomy. At the center of this secular moral decay we would find women like atheist Madalyn O'Hair (who removed the Bible and school prayer from public school) who had children not only out of wedlock, but also, they did not even know who their fathers were. Then will follow a culture with the "Hollywood morals" where a woman can divorce and marry 13 times and another 7 times and not to mention the kind of see through dress they wear particularly during their Oscars and "Red carpet" festival. Then again will follow Hugh Hefner's playboy and the porn culture. When Hugh Hefner's Playboy porn business began in 1953 it was operated underground because pornography was illegal in the country. Then in 1955 he won a court case where the court ruled that his Playboy porn magazine had a constitutional backing of "free speech or expression", and opened the floodgate of the porn industry. The court did the same setback to civilization when President Clinton had Congress pass the Internet Decency Act to prevent pornography being put on the internet. And the court ruled as unconstitutional. And today we have the floodgate of porn on the internet and particularly we have serious problems with child pornography. Hence, bad decisions by the court (the judiciary branch of the government) and Congress, the people's representative attitude of "do nothing" about them, has immensely contributed to moral decay not only in the U. S. but the rest of the world who are looking at the degraded, human sexual pictures. Therefore, if this country was begun with such secular moral decay, marriage and family would have not been a serious business. And hence, all the businesses the immigrant families created and which have grown to be all the huge corporations we see today, would not be around and make America great. However, the prosperity and the good and easy life these millions of corporations have brought, unfortunately have made the new secular generation instead of being more thankful to God, have turned their back to faith or religion, thinking nothing can happen to our moral corruption. So, CONVID-19 is a timely divine warning of the worse that can happen

to the world if we don't turn back to God's moral life taught by the Church and Synagogue or the Judeo-Christian culture, since the ancient worlds that did what we are doing today did not get away with when their cup was full. Indeed, when they all became secular and godless and fell into "moral corruption" and with their sophistication like ours today, the devil deceived them, that they were in-charge and nothing could happen to them until God's judgement came. Because God's moral law is steadfast and is the same for all generations, so that living to violate it sooner or later is going to bring its consequence, and the latter is not fine for life, and would lead to self-destruction and massive suffering. Hence, the "sexual revolution" accompanied with "open sodomy" will do nothing good in the world but destroy family, the building block of every civilization or nation. And when you destroy family you eventually destroy yourself, because broken homes, destitution, crime, violence and confusion becomes the order of the day instead of productive and peaceful life.

The Good of President and Melina Trump's Public Religious Expression:

Indeed, if President Trump's political slogan "Make America Great Again" means restoring America to her religious foundation, moral and dignified cultural values, then he is certainly right. No nation or culture has risen and given the world a civilization, and advanced culture and human living, who did not have a religious foundation and a professed faith in God of the universe, who has revealed Himself more today through His adoption of the nation of Israel, and the teaching of His son and our Lord Jesus Christ. I say "bravo" to the President and his wife because in our modern history he is not afraid of the ACLU and the political correct rascals and ruffians, and not only mentions God in Public, but his executive order to restore the lost "religious freedom" enshrined in the constitution and his intent to restore the Bible and school prayer in the public school, the latter which not only Christians but good Americans would love to see. If we are realistic since the Supreme Court removed the Bible and prayer from the public school because of one atheist complaint, what do we get? Children are loading guns, knives, scissors, etc. to go and harm or kill, and so are police stations, metal detectors, video and surveillance cameras have found their way into a school learning environment where they don't belong in the first place. And his wife Melina also is not afraid and ashamed to pray in public. This is right because the archives and the records are clear, the European Christian immigrants began this nation from colonial days with a spiritual or religious foundation and a professed faith in God through the teaching of our Lord Jesus Christ, and which the Founding Fathers and their generation passed it on to us. However, and unfortunately in our secular culture today, the ACLU and the political correct rascals and ruffians have come up with a concept "separation of Church and state" which exists nowhere in our constitution, and sold it to the American court, the judiciary branch of the government, and like Taliban of Afghanistan is using it to destroy the American religious history and traditions, and the most important of all the moral fiber of the country. The result is that, not only the nation's moral values is sinking and decaying, but that our political leaders are afraid to express their faith in public and keep it in the closet, and would rather lead homosexual "pride parade", a sexual behavior our ancestors and the architects of this great nation said it's a sin against God and kept it in the closet. What many of these politicians don't know and they think they can hide their religious faith in the closet is that, the reason they are not living with two girl-friends and they are married to one wife, or they are a man or woman of integrity and honesty in their leadership is the fact of their religious up-bringing. So, why are they afraid and unlike President Trump and his wife can't express their faith in public? From the beginning that's how it was, your religious and Christian faith is what put you or got you elected to public office. What we are seeing today and religious life and faith in God is becoming irrelevant is because the

culture is becoming secular and godless and again is because the new generation want to live immoral life and opposite to what the Church or Synagogue teaches. Indeed, what the secular godless culture doesn't know and perhaps doesn't want to know is the fact that, just like the past moral and spiritual virtues have brought us into the light of great prosperity and bounteous good life, so moral decay and corruption would bring the opposite of the former i.e. self-destruction and hard life to posterity or the future and hence our children and the generations to come. Even if God is not in life's equation history is clear, nations rise and fall because of different believes and values. Therefore, COVID-19 is a timely divine warning that if we want to preserve this civilization and the great prosperity in commerce and industry it has brought there is a need to return to the belief and values that made us great. We must remember, that, this life and the universe we found ourselves in is not empty and meaningless as atheist and political correct rascals and ruffians think. At the end of the day there is a God at the helm of everything and His divine law is what counts or rules the world or the universe.

May the Lord's grace and mercy be upon the nations. Amen!
